

Chipotle Mexican Grill, Inc. Announces First Quarter 2016 Results

DENVER--(BUSINESS WIRE)--Apr. 26, 2016-- Chipotle Mexican Grill, Inc. (NYSE: CMG) today reported financial results for its first quarter ended March 31, 2016.

Highlights for the first quarter of 2016 as compared to the first quarter of 2015 include:

- Revenue decreased 23.4% to \$834.5 million
- Comparable restaurant sales decreased 29.7%
- Comparable restaurant transactions decreased 21.1%
- Restaurant level operating margin was 6.8%, a decrease from 27.5%
- Net loss was \$26.4 million, a decrease from net income of \$122.6 million
- Diluted loss per share was \$0.88, a decrease from diluted earnings per share of \$3.88
- Opened 58 new restaurants

"As our sales are on a gradual path to recovery, we remain focused on our mission of changing the way people think about and eat fast food. The best approach to re-building our business is to proudly serve safe and delicious food in our high-quality restaurants every single day, which is exactly what we will continue to do," said Steve Ells, founder, chairman and co-CEO of Chipotle.

First quarter 2016 results

Revenue for the quarter was \$834.5 million, down 23.4% from the first quarter of 2015. The decrease in revenue was driven by a 29.7% decrease in comparable restaurant sales, partially offset by sales from new restaurant openings. Comparable restaurant sales declined primarily as a result of a decrease in the number of transactions in our restaurants, and to a lesser extent by a decline in average check, including an impact from sales promotions.

We opened 58 new restaurants during the quarter, bringing the total restaurant count to 2,066.

Food costs were 35.3% of revenue, an increase of 140 basis points as compared to the first quarter of 2015. The increase was driven by food testing and waste costs, and increased costs for pre-cut produce items. Increases in food costs were partially offset by relief in beef prices.

Restaurant level operating margin was 6.8% in the quarter, a decrease from 27.5% in the first quarter of 2015. The decrease was primarily driven by unfavorable sales leverage, and to a lesser extent by higher than usual marketing and promotional costs, and food testing and waste costs.

General and administrative expenses were 7.4% of revenue for the first quarter of 2016, an increase of 160 basis points over the first quarter of 2015 due to sales deleverage, partially offset by lower non-cash stock based compensation expense.

Net loss for the first quarter of 2016 was \$26.4 million, or \$0.88 per diluted share, compared to net income of \$122.6 million, or \$3.88 per diluted share, in the first quarter of 2015.

"Our restaurants and leadership teams have worked hard to overcome the challenges of the first quarter. What is most important is that we continue to build teams of top performers in our restaurants, and among our field leadership, which will allow us to continue to improve on our already high standards and exceptional customer experience. We have some of the best employees in the industry, which continues to serve as a competitive advantage, and we will continue to invest in our people culture to help expedite the next stage of growth for Chipotle," said Monty Moran, co-CEO

Outlook

For 2016, management expects the following:

- 220 - 235 new restaurant openings
- An effective full year tax rate of approximately 38.4%

Definitions

The following definitions apply to these terms as used throughout this release:

Comparable restaurant sales represent the change in period-over-period sales for restaurants in operation for at least 13 full calendar months.

Average restaurant sales refers to the average trailing 12-month sales for restaurants in operation for at least 12 full calendar months.

Restaurant level operating margin represents total revenue less restaurant operating costs, expressed as a percent of total revenue.

An archived webcast will be available approximately one hour after the end of the call.

About Chipotle

Steve Ells, founder, chairman and co-CEO, started Chipotle with the idea that food served fast did not have to be a typical fast food experience. Today, Chipotle continues to offer a focused menu of burritos, tacos, burrito bowls (a burrito without the tortilla) and salads made from fresh, high-quality ingredients, prepared using classic cooking methods and served in a distinctive atmosphere. Through our vision of Food With Integrity, Chipotle is seeking better food from using ingredients that are not only fresh, but that—where possible—are sustainably grown and raised responsibly with respect for the animals, the land, and the farmers who produce the food. In order to achieve this vision, we focus on building a special people culture that is centered on creating teams of top performers empowered to achieve high standards. This people culture not only leads to a better dining experience for our customers, it also allows us to develop future leaders from within. Chipotle opened with a single restaurant in 1993 and operates more than 2,000 restaurants, including 25 Chipotle restaurants outside the US and 14 ShopHouse Southeast Asian Kitchen restaurants, and is an investor in an entity that owns and operates four Pizzeria Locale restaurants. Forward-Looking Statements

Certain statements in this press release, including statements regarding sales recovery, as well as statements under the heading "Outlook" of our expected number of new restaurant openings and effective tax rates in 2016, are forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. We use words such as "anticipate", "believe", "could", "should", "estimate", "expect", "intend", "may", "predict", "project", "target", and similar terms and phrases, including references to assumptions, to identify forward-looking statements. The forward-looking statements in this press release are based on information available to us as of the date any such statements are made and we assume no obligation to update these forward-looking statements. These statements are subject to risks and uncertainties that could cause actual results to differ materially from those described in the statements. These risks and uncertainties include, but are not limited to, the following: the uncertainty of our ability to achieve expected levels of comparable restaurant sales comparisons due to factors such as changes in consumers' acceptance of and enthusiasm for our brand, including as a result of recent food-borne illness incidents, the impact of competition, decreased overall consumer spending, or our possible inability to increase menu prices or realize the benefits of menu price increases; the risk of food-borne illnesses and other health concerns about our food or dining out generally; factors that could affect our ability to achieve and manage our planned expansion, such as the availability of a sufficient number of suitable new restaurant sites and the availability of qualified employees; the performance of new restaurants and their impact on existing restaurant sales; increases in the cost of food ingredients and other key supplies or higher food costs due to new supply chain protocols; the potential for increased labor costs or difficulty retaining qualified employees, including as a result of market pressures, enhanced food safety procedures in our restaurants, or new regulatory requirements; risks relating to our

expansion into new markets; the impact of federal, state or local government regulations relating to our employees, our restaurant design, or the sale of food or alcoholic beverages; risks associated with our Food With Integrity strategy, including supply shortages and potential liabilities from advertising claims and other marketing activities related to Food With Integrity; security risks associated with the acceptance of electronic payment cards or electronic storage and processing of confidential customer or employee information; risks relating to litigation, including possible governmental actions related to food-borne illness incidents, as well as class action litigation regarding employment laws, advertising claims or other matters; risks relating to our insurance coverage and self-insurance; our dependence on key personnel; risks related to our marketing and advertising strategies and our ability to protect our brand and reputation; risks associated with our ability to effectively manage our growth; and other risk factors described from time to time in our SEC reports, including our most recent annual report on Form 10-K and subsequent quarterly reports on Form 10-Q, all of which are available on our website at chipotle.com.
