Overview for the six months ended June 30, 2016 as compared to the six months ended June 30, 2015:

- Revenue decreased 19.9% to \$1.83 billion
- Comparable restaurant sales decreased 26.5%

- Diluted loss per share was \$0.03, a decrease from diluted earnings per share of \$8.34

"We returned to profitability, and saw a modest improvement in comp sales trends in the second quarter. Our most recent marketing efforts, led by our Chiptopia frequency program, are off to a nice start in the third quarter, as customers are embracing the program and nearly 30% of all transactions are engaged in Chiptopia. Our entire company is focused on restoring customer trust and re-establishing customer frequency, and rewarding our most loyal customers for visiting more often through Chiptopia is one way to do just that. While it has only been a few weeks since Chiptopia launched, we are pleased to see that July sales comp trends have already improved by 200 to 300 basis points, and transaction comp trends have improved by an even greater amount," said Steve Eells, founder, chairman and co-CEO of Chipotle.

Second quarter 2016 results

Revenue for the quarter was \$998.4 million, down 16.6% from the second quarter of 2015. The decrease in revenue was driven by a 23.6% decrease in comparable restaurant sales, partially offset by sales from new restaurant openings. Comparable restaurant sales declined primarily as a result of a decrease in the number of transactions in our restaurants, and to a lesser extent from a decline in average check.

We opened 58 new restaurants during the quarter, bringing the total restaurant count to 2,124.

Food costs were 34.2% of revenue, an increase of 110 basis points as compared to the second quarter of 2015. The increase was driven by increased costs at our suppliers related to new food safety procedures and food waste costs. Increases in food costs were partially offset by the benefit of menu price increases implemented in select restaurants in the second half of 2015.

Restaurant level operating margin was 15.5% in the quarter, a decrease from 28.0% in the second quarter of 2015. The decrease was primarily driven by unfavorable sales leverage, and to a lesser extent by higher marketing and promotional costs.

General and administrative expenses were 7.1% of revenue for the second quarter of 2016, an increase of 120 basis points over the second quarter of 2015 as a result of sales deleverage. In dollar terms, general and administrative expenses were flat compared to the second quarter of 2015, as increased wages as we grew and higher legal expenses, were offset by lower non-cash stock based

compensation expense and related employee taxes.

Net income for the second quarter of 2016 was \$25.6 million, or \$0.87 per diluted share, compared to net income of \$140.2 million, or \$4.45 per diluted share, in the second quarter of 2015.

Results for the six months ended June 30, 2016

Revenue for the first six months of 2016 was \$1.83 billion, down 19.9% from the first six months of 2015. The decrease in revenue was driven by a 26.5% decrease in comparable restaurant sales, partially offset by sales from new restaurant openings. Comparable restaurant sales declined primarily as a result of a decrease in the number of transactions in our restaurants, and to a lesser extent from a decline in average check.

We opened 114 new restaurants during the first six months of 2016, net of two relocations, bringing the total restaurant count to 2,124.

Food costs were 34.7% of revenue, an increase of 120 basis points as compared to the first six months of 2015. The increase was driven by increased costs at our suppliers related to new food safety procedures and food waste costs. Increases in food costs were partially offset by the benefit of small and targeted menu price increases implemented in the second half of 2015, and relief in beef prices.

Restaurant level operating margin was 11.6% in the first half of 2016, a decrease from 27.7% in the first six months of 2015. The decrease was primarily driven by unfavorable sales leverage, and to a lesser extent by higher marketing and promotional costs.

General and administrative expenses were 7.2% of revenue for the first six months of 2016, an increase of 140 basis points over the first six months of 2015 as a result of sales deleverage. In dollar terms, general and administrative costs were lower than last year, due to lower non-cash stock based compensation expense and related employee taxes, offset by increased wages as we grew and higher legal expense.

Net loss for the first six months of 2016 was \$0.8 million, or \$0.03 loss per diluted share, compared to net income of \$262.8 million, or \$8.34 per diluted share, for the six months ended June 30, 2015.

"The best thing that we can do for our business is to earn customers' trust and loyalty by consistently providing a terrific restaurant experience with safe, delicious food and excellent service. We will do that by continuing to develop great leaders who can build restaurant teams of empowered top performers that can successfully deliver on this goal," said Monty Moran, co-CEO.

Outlook

For 2016, management expects the following:

- 220 - 235 new restaurant openings
- An effective full year tax rate of approximately 38.6%

About Chipotle

Steve Ells, founder, chairman and co-CEO, started Chipotle with the idea that food served fast did not have to be a typical fast food experience. Today, Chipotle continues to offer a focused menu of burritos, tacos, burrito bowls (a burrito without the tortilla) and salads made from fresh, high-quality ingredients, prepared using classic cooking methods and served in a distinctive atmosphere. Through our vision of Food With Integrity, Chipotle is seeking better food from using ingredients that are not only fresh, but that—where possible—are sustainably grown and raised responsibly with respect for the animals, the land, and the farmers who produce the food. In order to achieve this vision, we focus on building a special people culture that is centered on creating teams of top performers empowered to achieve high standards. This people culture not only leads to a better dining experience for our customers, it also allows us to develop future leaders from within. Chipotle opened with a single restaurant in 1993 and operates more than 2,100 restaurants, including 27 Chipotle restaurants outside the US and 15 ShopHouse Southeast Asian Kitchen restaurants, and is an investor in an entity that owns and operates four Pizzeria Locale restaurants.
