"We had a strong ending to 2019 as Q4 marks the eighth-consecutive quarter of accelerating comparable sales, which highlights that running great restaurants with the right leaders and the right culture is delivering outstanding financial performance," said Brian Niccol, Chief Executive Officer, Chipotle. "For the full year, Chipotle's average unit volumes exceeded \$2.2 million and digital sales surpassed a billion dollars, showing that our key strategies are working, and the Chipotle brand is thriving as we build a sustainable model that helps cultivate a better world."

Fourth quarter 2019 results:

Revenue for the quarter was \$1.4 billion, an increase of 17.6% from the fourth quarter of 2018. The increase in revenue was driven by a 13.4% increase in comparable restaurant sales and new restaurant openings. Comparable restaurant sales included no net impact from our rewards program as deferred revenue was essentially offset by redemptions and a refined breakage rate assumption for chips and guacamole. Comparable restaurant sales improved primarily as a result of an 8.0% transaction growth, as well as a 5.4% increase in the average check.

We opened a record 80 new restaurants including one relocation during the quarter and closed three. This included 46 Chipotlanes resulting in a total of 66 Chipotlanes at year-end. For 2020, we anticipate opening 150-165 new restaurants with more than half including a Chipotlane.

Food, beverage and packaging costs were 33.1% of revenue, a decrease of 10 bps compared to the fourth quarter of 2018. The decrease was primarily due to the benefit of menu price increases and to a lesser extent favorable avocado pricing, partially offset by increased costs of several other

ingredients, including carne asada and expenses related to loyalty.

Restaurant level operating margin was 19.2% in the quarter, an improvement from 17.0% in the fourth quarter of 2018. The improvement was driven primarily by leverage from the comparable restaurant sales increase, partially offset by wage inflation at the crew level and increased delivery expense.

General and administrative expenses were \$112.4 million on a GAAP basis, or \$106.4 million on a non-GAAP basis, excluding \$3.6 million net related to several legal matters and \$2.3 million related to transformation expenses. Included in the legal matters this quarter was a \$10 million reserve related to the US Attorney's investigation that began in January 2016. This brings the total reserve to \$25 million. We believe this amount is a reasonable estimate of what we may be expected to pay to settle this matter. While there can be no assurance that a settlement will be reached, we have been cooperating with the investigation and are in discussions to resolve this matter. GAAP and non-GAAP general and administrative expenses for the fourth quarter of 2019 also included underlying general and administrative expenses totaling \$74.9 million, \$25.4 million related to non-cash stock compensation, \$4.5 million related to higher bonus accruals from our strong operating performance and payroll taxes, and \$1.6 million related to our upcoming All Manager Conference.

The GAAP effective tax rate was 28.3% in the fourth quarter of 2019, compared to 26.3% in the fourth quarter of 2018. The increase was primarily due to current year increases in non-deductible executive compensation. On a non-GAAP basis, the 2019 fourth quarter effective tax rate was 27.0%.

Net income for the fourth quarter of 2019 was \$72.4 million, or \$2.55 per diluted share, compared to net income of \$32.0 million, or \$1.15 per diluted share, in the fourth quarter of 2018. Excluding the impact of legal expenses, corporate restructuring, and certain other costs, adjusted net income was \$81.0 million and adjusted diluted earnings per share was \$2.86.

During the quarter, our Board of Directors approved the investment of up to an additional \$100 million, exclusive of commissions, to repurchase shares of our common stock, subject to market conditions. This repurchase authorization, in addition to approximately \$69.4 million available as of December 31, 2019, for repurchases under a previously announced repurchase authorization, may be modified, suspended, or discontinued at any time.

Full year 2019 results:

Revenue for 2019 was \$5.6 billion, an increase of 14.8% from 2018. The increase in revenue was driven by a 11.1% increase in comparable restaurant sales net of 20 bps from loyalty deferral, and new restaurant openings. Comparable restaurant sales improved primarily as a result of a 7.0% transaction growth, as well as a 4.1% increase in the average check.

We opened 140 new restaurants during the year, including two relocations, and closed seven, in-line with previous guidance, bringing the total restaurant count at year-end to 2,622.

Food, beverage and packaging costs were 33.1% of revenue, an increase of 20 bps compared to 2018. The increase was driven by higher costs of several ingredients including carne asada, dairy, avocados, and expenses related to loyalty, partially offset by the benefit of menu price increases.

Restaurant level operating margin was 20.5% for 2019, an improvement from 18.7% in 2018. The improvement was driven primarily by leverage from the comparable restaurant sales increase, partially offset by higher food costs, wage inflation at the crew level, increased delivery expense, and increased marketing spend.

General and administrative expenses were \$451.6 million on a GAAP basis, or \$406.9 million on a non-GAAP basis, excluding \$30.8 million net related to several legal matters and \$13.9 million related to transformation expenses, restaurant closure costs and certain other costs. GAAP and non-GAAP general and administrative expenses for the full year also included underlying general and administrative expenses totaling \$293.0 million, \$90.4 million related to non-cash stock compensation, \$19.3 million related to higher bonus accruals from our strong operating performance and payroll taxes, and \$4.2 million related to our upcoming All Manager Conference.

The GAAP effective tax rate was 23.6% in 2019, compared to 34.2% in 2018. The decrease was primarily due to excess benefits from stock-based compensation and a year over year decrease in tax expense related to expirations of stock-based awards, partially offset by current year increases in non-deductible executive compensation. On a non-GAAP basis, the 2019 full year effective tax

rate was 22.4%.

Net income for 2019 was \$350.2 million, or \$12.38 per diluted share, compared to net income of \$176.6 million, or \$6.31 per diluted share for 2018. Excluding the impact of legal expenses, corporate restructuring, restaurant asset impairment, and certain other costs, adjusted net income was \$397.7 million and adjusted diluted earnings per share was \$14.05.

Outlook

For 2020, management is anticipating the following:

- Mid-single digit comparable restaurant sales growth
- 150 to 165 new restaurant openings
- An estimated effective full year tax rate between 26% and 29%

We present these non-GAAP measures in order to facilitate meaningful evaluation of our operating performance across periods. These adjustments are intended to provide greater transparency of underlying performance and to allow investors to evaluate our business on the same basis as our management, which uses these non-GAAP measures in evaluating the company's performance. Our adjusted net income, adjusted diluted earnings per share, and adjusted general and administrative expenses measures may not be comparable to other companies' adjusted measures. These adjustments are not necessarily indicative of what our actual financial performance would have been during the periods presented and should be viewed in addition to, and not as an alternative to, our results prepared in accordance with GAAP.
